

Our Story

Some of the best friendships start in the most unexpected ways; we think that's how you know they are meant to be! The special bond between Phillip and Kelly Eggers and Tim and Sami O'Connell began on the beach in Cabo San Lucas, Mexico, in 2014.

After years of wonderful friendship, respect for one another, and a shared love for the western lifestyle, the four decided to open a new business together! This leads us to the official introduction of Ranch & Co. Interiors! Providing family-owned, custom-created, western furniture designs for those who want quality craftsmanship and some of the best leathers and cowhides on the market. Phillip, Kelly, Tim, and Sami were all raised with the country lifestyle in their blood; they know that a strong work ethic, high-quality materials, and true grit will make Ranch & Co. Interiors a success beyond measure. Our customers will always be treated like family, and each product we create will be crafted from our hearts and souls. We cannot wait to share more of Ranch & Co. Interiors with y'all!

Read the full story on our website.

Leather

Our company only uses the highest qualities of top & full grain leathers from Europe and South America. This factor will give both you and your client confidence in the overall quality of the furniture. Top-grain comes from the outermost layer of the hide. Top-grain leather can be used in its most natural form, and requires minimal processing. Because top-grain is the most durable leather, if properly cared for, it should last indefinitely.
